

Computer Access Tool Time: Alphanumeric and Pointer Input

Head Mouse (Pointer)	 A photograph showing a person's head in profile, wearing a white head-mounted device. The device is positioned over a computer monitor. The monitor displays a complex, colorful network diagram. The person appears to be using the head-mounted device to interact with the content on the screen.
Drawing Slate (Pointer)	 A photograph of a drawing slate, which is a flat, rectangular surface used for drawing. A white mouse is attached to the slate, and a thin, vertical pointer is extending from the top of the slate. The slate is mounted on a stand.
KidsBall (Pointer)	 A photograph of a KidsBall device. It is a large, white, oval-shaped device with a prominent yellow ball in the center. There are two blue handles on either side of the yellow ball. A blue cord is attached to the top of the device.
TrackBall (Pointer)	 A photograph of a TrackBall device. It is a rectangular device with a large red ball in the center. There are several buttons and controls around the ball, including a green button at the top and a yellow button on the left. The device is mounted on a stand.
